DIESTONE DLS is a solvent composition with controlled volatility and weak odour. It is free from chlorinated hydrocarbons and used as a cleaning agent. The product provides maximum security : it does not contain any teratogenic or carcinogenic components, toluene or ethylene glycol ethers.

- The flash point of 30°C (86°F) is stable in time and remains constant throughout the evaporation duration.
- Very high solvent power which allows excellent cleaning and degreasing of metallic surfaces before painting.
- Non corrosive on metals, including light alloys.
- Efficient reactivation and cleaning of epoxy and polyurethane primers.

## **USES**

#### Painting and paint stripping shops, construction and assembly:

- Cleaning of jointing, sealant and glue application equipment. Removal of excess quantities, marks and runs of jointing products, sealants and glues.
- Degreasing during maintenance operations.
- Subsidiary stripper of dry paint films (elimination of polyvinyl primers and nitrocellulose lacquers).
- Removal of felt tip, inks, etc...
- Degreasing of metallic materials, epoxy/carbon composites and thermoplastic materials before painting.

## DIRECTIONS FOR USE

**DIESTONE DLS** is used as supplied and without dilution at ambient temperature using the following methods:

- spraying,
- brushing or swabbing
- wiping with a cloth or wipe

DIESTONE DLS is also available in aerosol and AEROSOL EXTENDER 60cm for application in cavities.

## TECHNICAL CHARACTERISTICS

Appearance	clear liquid
Specific gravity	•
Evaporation rate (NFT 30301) (n-Butyl acetate=1)	
Halogenated hydrocarbon content	
Flash point	

## PRECAUTIONS FOR USE AND STORAGE

3/4

It is recommended to wear suitable gloves because the strong degreasing action of DIESTONE DLS will de-fat the skin. Avoid breathing or swallowing the product. Wear suitable eye protection when handling or using the product. In the case of contact with skin or eyes, rinse immediately and abundantly with water. If work is continuous, it is recommended to install a vapour extraction system at the emission point.

DIESTONE DLS must be used and stored in a sufficiently ventilated place, away from flame and heat sources. The product must be protected and kept in the closed original containers.

For more information regarding the danger of the product, please consult the product safety data sheet according to local regulation.

For professional use only.

#### This technical data sheet replaces and cancels the previous one.
